

THE UNITED STATES PATENT AND TRADEMARK OFFICE

Application No.: 09/075,429
Patent No.: 5,966,962
Inventor: Murray et al.
Filing Date: 05/08/1998
Issue Date: 10/19/1999
Title: Modular Hydration and
Freezing Plant for Flexible
Refrigerant Media

DECLARATION OF BARRY E. NEGRIN

1. I am one of the current patent attorneys for ThermaFreeze Products Corporation and Joseph C. Murray. I am submitting this declaration to provide factual support for the Petitions to Revive U.S. Patent Application No. 09/919,747 ("the '747 application").
2. Attached as Exhibit A is a true and correct copy of a printout of the "Home Page" and "Profiles" sections of the website found at the URL www.patentlaw.com as it appeared on November 15, 2007.
3. Attached as Exhibit B is a true and correct copy of a printout of the application data and transaction history for US Patent Application No. 09/919,747 from the Patent Application Retrieval System of the USPTO available at <http://portal.uspto.gov/external/portal/pair>. The data and printout of Exhibit B were generated November 12, 2007.
4. On September 18, 2007, I began working on the requisite background research necessary to establish the current status of the ThermaFreeze patent portfolio. Since then, I have spent over 80 hours on ThermaFreeze work. My time included the following

activities: gathering the facts concerning why the maintenance fees were not paid on three of ThermaFreeze's patents in a timely manner and why responses to various Office actions for the '747 application were not responded to in a timely manner, as well as preparing and filing Petitions to Accept Late-Paid Maintenance Fees for U.S. Patent Nos. 5,628,845 ("the '845 patent"), 5,966,962 ("the '962 patent"), and 6,536,189 ("the '189 patent"). During that time, I have had numerous conversations and frequent correspondence with Joseph Murray, the inventor, and Robert "Bob" McGuire, his associate. Attached as Exhibit C hereto is a copy of a Declaration by Robert McGuire filed with the Petition for the '845 patent, which describes some of the fact-checking and searching he did concerning, among other things, the fate of the previous patent attorney C. Emmett Pugh and his files (specifically, his files concerning Joseph Murray's inventions).

5. In the course of the above-referenced research, on September 28, 2007, I informed Mr. Murray that the '747 application was abandoned. I had initially reviewed the application data for this application on PAIR. (See Exhibit B attached hereto.) I also reviewed the transaction history and image file wrapper to see what had transpired during the prosecution of the application. I noticed that the application had been abandoned on three separate occasions. The application was first abandoned on November 5, 2001 because no response was filed to the Notice to File Missing Parts. A Petition to Revive was filed by Mr. Pugh on November 4, 2002 (almost a year later). The application was abandoned the second time for failure to respond to a Restriction Requirement mailed July 14, 2003. In response to the second Notice of Abandonment mailed March 2, 2004,

**Declaration of Barry E. Negrin
In Support of Petitions to Revive
U.S. Patent Appl'n No. 09/919,747**

Mr. Pugh filed a second Petition to Revive on August 13, 2004. Thereafter, a first Office Action was mailed on February 7, 2005. Mr. Pugh appears to have never responded to this Office Action, and the application went abandoned a third time as a result. The requisite substantive response to the Office Action for this application is being submitted herewith.

6. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under § 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent(s) issued thereon.

Executed in New York, NY

Date: December 18, 2007
